AMENDMENT

April 25, 2005

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

This paper is in response to the Official Action mailed on January 25, 2005. No fee is due. However, please charge our Deposit Account No. 18-0002 if any fees are needed to enter this paper, and please advise us accordingly. It is noted that no petition is required because of the authorization to charge, but please consider this paper a petition for extension of time if needed.

The term "driven section," which was the basis of a drawing objection for not being illustrated, is explicated by amendments to the specification. The Examiner is invited to note page 4, line 9, reading, "the pulling lever 12 may be moved to drive the driven section of the elastic slice 11 close to the surface of the interface card 10." This is believed to define the "driven section" sufficiently and to provide basis for the present amendment, because it is clear from the drawing what portion of the elastic slice 11 moves, i.e., is driven (Figs. 4A-4C).
